- 3- Climate Change Fund Flow**
- 4- Project/Programme Implementation Mechanism**
- 5- Project/Programme Implementation Cycle**
- 6- Project/Programme Implementation Result**
- 7- Future Plan**

1- Climate Change Policy and Project/Programme for Sub-national level in Cambodia

- Cambodia 10 years National Climate Change Strategic Plan 2014-2023
- Cambodia 10 years National Democratic for Sub-National Development Program (2010-2019)
- 3-Year Implementation Programme First Phase (2010-2013)
- 3-Year Implementation Programme Second Phase (2014-2016)
- 3-Year Implementation Programme Third Phase (2017-2019)

1- Climate Change Policy and Project/Programme for Sub-national level in Cambodia (Con.)

- Local Government and Climate Change (LGCC) was the first NCDD-S initiative accessing earmarked climate change finance
- Initial pilot was implemented in 2011-2012 with support from CCCA Trust Fund and UNCDF (LGCC = USD300,000.00)
- Since 2013 LGCC has been supported by SIDA and UNCDF (LGCCII = USD2,978,502.00)
- From 2017-2018 LGCC will be supported by SIDA and UNCDF (LGCCII Bridging= USD1.200.000.00)
- Since 2013-2014 SNC-Scale Up had been supported by UNDP (Around USD800.000.00)

1- Climate Change Policy and Project/Programme for Sub-national level in Cambodia (Con.)

- Agriculture Services Programme for Innovation, Resilience and Extension (ASPIRE USD10,000,000.00) 2015-2012 IFAD
- Mainstreaming Climate Resilience into Development Planning (SPCR/ADB USD1,200,000.00) 201-2018
- Community-Based Disaster Risk Reduction (CBDRR Around USD2,500,000.00) 2016-2017 ADB/JP
- Reducing the Vulnerability of Cambodia Rural Livelihoods (SRL Around USD3,500,000.00) 2016-2018 UNDP/GEF

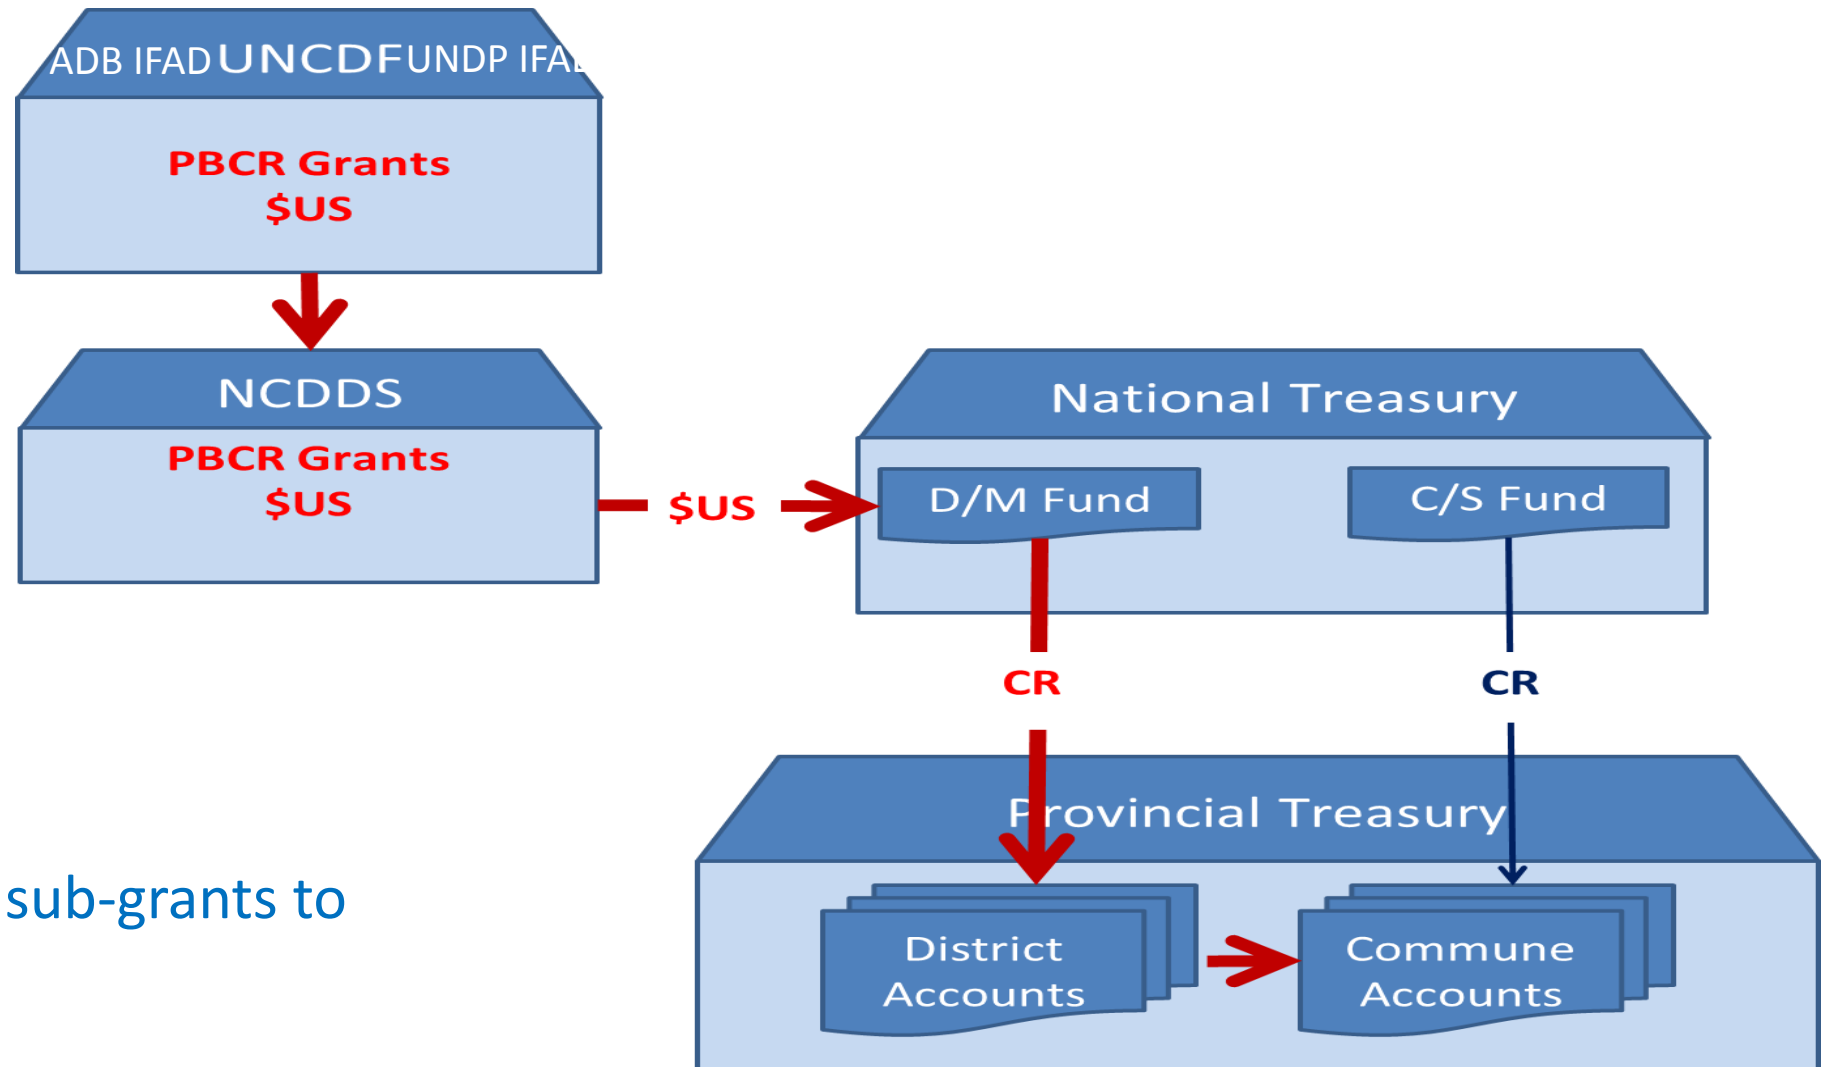

2- Objective of Project/Programme for Sub-national Level (Con.)

The principle purpose of Climate Change Adaptation Project/Programme is to demonstrate the key role of Local Governments in fostering Climate Change resilience at community level and to support their access to CCA funds.

- Provide the capacity building on CCA concept, impacts and adaptation intervention to sub-national government officers
- Improve the role and responsibility of CCA project implementation for sub-national government
- Prepare and Improved local investment planning guideline and policy to ensure the CCA mainstreaming in to Sub-national development plan and Investment Programme
- Prepare the Climate Investment Financial System for Sub-national Government.

3- Climate Change Investment fund flow

Districts will transfer sub-grants to communes

4- Project/Programme Implementation Mechanism

National Level

- National Committee for Sub-national Democratic Development Secretariat (NCDDS)

Provincial Level

- Provincial Administration and Technical Line Departments

District/Municipality Level

- District/Municipal Administration and Technical Line Offices

Commune/Sangkat Level

- Commune/Sangkat Councilor and Community People

5- Project/Programme Implementation Cycle

6-Project/Programme Implementation Results

- Established the mechanism for CCA project/Programme Implementation
- Formulated Climate Investment System for sub-national level
- Worked with other agencies and projects to develop mainstreaming of climate change adaptation in local development planning “ Climate Change Adaptation Mainstreaming Guideline” and “Climate Change Adaptation Mainstreaming Training Manual”
- Formulated the Hip Pocket on CCA mainstreaming in to Commune/Sangkat Plan

6-Project/Programme Implementation Results (Con.)

- Testing and refinement of Vulnerability Reduction Assessment (VRA) participatory methodology
- Formulated the Venerable Map
- Introduced District Climate Change Adaptation Strategy
- Formulated the Training Manual on CCA mainstreaming to Sub-national Plan
- Formulated the BPCB Grant Assessment and Participatory Project Evaluation Tool

6-Project/Programme Implementation Results

Water Canal Restoration Project

Community Water Pond Project

Restoration of Rural Road Project

Water Gate Project

6-Project/Programme Implementation Results (Con.)

Restoration of Water Community Pond Project

6-Project/Programme Implementation Results (Con.)

Restoration of Water canal Project

6-Project/Programme Implementation Results (Con.)

Restoration of Rural Road Project

Restoration Rural Road Project LGCC 23 July 2013 Borey Cholsa Commune, Borecholsa District TAK

6-Project/Programme Implementation Results (Con.)

Water Gate Project and Spilt Water Dam

6-Project/Programme Implementation Results (Con.)

Dissemination on CC impact on health project

6-Project/Programme Implementation Results (Con.)

Agriculture Climate Resilience Service Extention

7-Future Plan

- Integrate CCA mainstreaming project/programme in to IP3 Phase 3
- Provide capacity building on CC concept, impact, intervention, CCA strategy to sub-national government
- Build the NCDDS capacity to be a National Implementing Entity (NIE)
- Formulated the concept note and proposal for GCF (USD15,000,000.00)
- Scale up the CCA Project/Programme to support 100 District/Municipality

Knowledge Sharing Event Cambodia's Responss to Climate Change Sub-national Climate Change Adaptation Mainstreaming

Thank You !!
