## PREFACE

*This Education Statistics and Indicators 2015-2016 Book* provides basic information regarding private schools including pre-school, primary, and secondary education in Cambodia. On behalf of the Ministry of Education, Youth and Sport, I would like to express my profound gratitude to all contributors such as school principals in term of data collection as well as District and Provincial Offices of Education, Youth and Sport for checking, revising and submitting data in an accurate and timely manner.

The Ministry of Education, Youth and Sport, and Development Partners have been cooperating in the preparation of the Education Statistics and Indicators in the purpose of improving the quality of the analysis to meet the national and international use. The Education Statistics and Indicators has become an effective tool for monitoring and evaluating, deepening analysis, and research in education sector.

Furthermore, the Ministry of Education, Youth, and Sport would like to express gratitude to the National Institute of Statistics of the Ministry of Planning for providing population data which makes the calculation of some education indicators possible, the UNICEF/SWEDEN, European Union (EU), and other development partner agencies for their financial and technical support as well as users for their constructive feedback.

Finally, I would also like to express my sincere gratitude to the management of the Ministry and officials at all levels for their contribution, effort and commitment in producing this book which has shown a fruitful improvement from year to year.

Phnom Penh, April 27, 2016

**Dr. HANG CHUON NARON**  
Minister  
Ministry of Education, Youth and Sport

## ***About Education Statistics and Indicators, 2015/2016***

### **What is it?**

The ***Education Statistics*** section is a collection of basic statistical information on schools in Cambodia for the school year 2015-2016. It focuses on Pre-School, Primary and Secondary Education and includes information on students, staff, textbooks, buildings and other school facilities, community participation and finance in their respective variables, characteristics and disaggregates.

The ***Education Indicators*** section presents information on selected indicators of quantity, quality, efficiency, equity, etc that are commonly used in measuring developments in the education system.

### **What is it for?**

***Education Statistics and Indicators, 2015-2016*** is primarily intended for use by education administrators and managers at the various levels of the Ministry of Education Youth and Sports (MoEYS). This naturally includes the Central, Provincial, District, and School levels. Within the school level are the Cluster School Heads and the School Principals who are in charge of the day-to-day activities of the school. Professionals including teachers, educators and allied personnel in related institutions and organizations including the PTA and the Community will find this booklet useful to their need to improve practices. Researchers in education and associated fields may also find the booklet valuable as a primary source of data on education in Cambodia. Overall the booklet provides a sound basis for policy analysis and planning and also serves as a pointer to a whole spectrum of studies and surveys in the Cambodian educational context.

### **How was it collected?**

The Department of Education Information Management System (DoEMIS) of the MoEYS uses the “Annual School Census Forms” - (ASCF) - to collect the data used in compiling this booklet. According to EMIS activities schedule, the forms are distributed to all the schools annually through the Provincial and District Education Services. The School Principals take the responsibility for filling the forms and the District and Provincial Offices for collecting, checking and returning the forms to the DoP.

Separating survey forms have also been designed and are being used for gathering data on private education including Pre-schools, Primary and Secondary schools and Tertiary institutes.

### **How was it processed?**

The Public Educational Statistics Office of DoEMIS of the MoEYS receives all the forms and manually checks, collates, batches and edits the forms according to pre-determined codes and procedures before entering the data into the computer. A specially prepared program that accepts data only if they are logically correct automatically checks for computer-entry errors. However, the Center crosschecks and corrects incomplete or incorrect entries in the forms at relevant collection points (Province, District, Schools) and in absolute cases follow up on the return of forms to ensure that all schools are covered.

National officers trained in data processing and computer technology operated the EMIS Department. The Department is equipped with Client\Server (LAN) with a number of workstations, and uses MySQL Server for creating the databases, SPSS 19 for data analysis, and Microsoft Excel 2010 for information output.

### **Selection of Indicators**

Within the context of planning, monitoring and evaluating the educational objectives and targets set by the MoEYS, statistical indicators presented in the booklet were selected from an array of standard education indicators used by UNESCO, UNICEF, and related agencies as measures of educational development. These indicators are also considered in the global focus on the assessment and development of Education for All.

### **How is it disseminated?**

Copies of the booklet are distributed to all Education Departments at the Central, Provincial and District levels and to all the schools in the country for their planning, monitoring and evaluating purposes. Copies are also sent to the various education-related ministries and organizations. The information is also disseminated on a “*selective*” basis as determined by the need of ministries, organizations and individuals.

## Explanatory Notes on Table 1: Schools, Classes, Students and Staff

**Number of Schools:** Total number of schools in the specified area or with specific characteristics.

**Disadvantaged Schools:** A disadvantaged school is a school with all the following 5 conditions:

- (i) At least 50 per cent of its rooms do not have good roof;
- (ii) At least 50 per cent of its rooms do not have good floor;
- (iii) At least 50 per cent of its rooms do not have good wall;
- (iv) Does not have drinking water supply; and
- (v) Does not have latrine facilities.

**Number of Classes:** Total number of classes in the schools.

**Classes in Pagoda:** Total number of classes that held in the pagoda compound but the whole school is not in pagoda. This school is outside the pagoda compound and has some classes in the pagoda.

**Enrollment (Total):** Total number of students enrolled in the schools.

**Enrollment (Girls):** Total number of female students enrolled in the schools.

**Repeaters (Total):** Total number of repeaters in the schools.

**Repeaters (Girls):** Total number of female repeaters in the schools.

**Teaching staff (Total):** Total number of teachers in the schools. Staff who are in charge of teaching everyday, librarians, operational activity teachers, art-home economic teachers, lab staff, computer trainers, primary school principals in school with 6 classes or less, and vice- principals with 10 classes or less; general secondary school principals in school with 4 classes or less and vice- principals with 7 classes or less.

**Teaching staff (Female):** Total number of female teachers in the schools.

**Non-teaching staff (Total):** Total number of non-teaching staff in the schools. Staff who are working everyday in school office, secretaries, accountants, dormitory manager, health staff, drivers, cooks, Primary School principals in schools with 7 classes or more and Vice principals with 11 classes or more; General Secondary School principals in schools with 5 classes or more and Vice principals with 8 classes or more.

**Non-teaching staff (Female):** Total female non-teaching workers in the schools.

**Urban, Rural Area:** Which school is in the urban or rural area is determined by

the Ministry of Planning. Usually however, 26 cities and Municipality of Phnom Penh are classified as urban schools whereas. The rest are rural schools.

**Pre-school:** Refers to schools for children aged 3-5 years old.

**Primary School:** Refers to schools that are providing at least one grade of primary education. Invariably, a Primary school can be 'full' with complete cycle grades of 1 to 6 or 'small' with only a few grades.

**College/Junior High School:** Refers to Lower Secondary schools with grades 7 through 9. However, some Lower Secondary schools may not have all three grades (Total of Colleges = 1,251).

**Lycee/Senior High School:** Refers to Upper Secondary schools with grades 10 through 12 (30 Schools). Some Lycee schools also have Lower Secondary grades (433 Schools). (Total of Senior High Schools = 463).

**Lower Secondary Level:** Total numbers having to do with schools that provide lower secondary education. The field would naturally count variables that relate to all Colleges and Lycee schools with lower secondary level (Total of Lower Secondary schools = 1,684).

**Upper Secondary Level:** Total numbers having to do with upper secondary education (Total of Upper Secondary schools = 463).

**Cluster - core school:** The central or main school of a primary school cluster.

**Cluster - satellite school:** Used to describe member of schools in a primary school cluster other than the core school.

**School not in cluster:** The primary school that is not in a primary school cluster (i.e., not "clustered").

**Annex school:** An annex school is a branch of a parent school. It naturally comes under the administration of the parent school, often overseen by the vice-principal or a senior teacher of the parent school. Annex schools normally do not have all 6 primary grades and are located in villages different from the village of their parent school (677 Schools).

**School in Pagoda:** Refers to schools that are totally located in pagoda compound (1,051 Schools).

## Common Education Indicators

- **Gross Enrollment Rate**

$$\frac{\text{Total enrollment in primary education}}{\text{Population aged 6-11}} \times 100$$

- **Net Enrollment Rate**

$$\frac{\text{Total enrollment in primary education aged 6-11}}{\text{Population aged 6-11}} \times 100$$

- **Gross Admission Rate**

$$\frac{\text{Total number of new intakes}}{\text{Population aged 6}} \times 100$$

- ✦ Number of new intakes is only pupils newly admitted to Grade 1, excluded Grade 1 repeaters.
- ✦ Total legal age to start schooling is 6 years.

- **Net Admission Rate**

$$\frac{\text{Total number of new intakes at age 6}}{\text{Population aged 6}} \times 100$$

- ✦ Number of new intakes at age 6 is only pupils newly aged 6 admitted to Grade 1.

- **Transition Rate (TR)** -Transition Rate from Primary to secondary education.

$$\frac{\text{New entrants to first grade of the next higher level in school-year T+1}}{\text{Number of pupils in the last grade of the previous level in school-year T}} \times 100$$

- **Promotion Rate**

$$\frac{\text{Number of pupils promoted to grade G +1 in year T +1}}{\text{Total number of pupils in Grade G in year T}} \times 100$$

- **Repetition Rate**

$$\frac{\text{Total number of repeaters in Grade G in year T +1}}{\text{Total number of pupils enrolled in Grade G in year T}} \times 100$$

- **Drop-out Rate**

$$\text{Drop-out Rate} = 100\% - (\text{Promotion Rate} + \text{Repetition Rate})$$

- ✦ G is grade and T is academic year. If (G) is Grade 2 in (T) is academic year 2008-09, then (G+1) is Grade 3 and (T +1) academic year 2009-2010.

✦ Total number of Pupils in Grade (G) in year (T): Total Enrollment grade (G) in beginning of academic year (T)

- **Completion Rate to Primary Education**

$$\frac{\text{Number of new pupils in grade 6 in year T}}{\text{Total number of Population aged 11 in year T}} \times 100$$

- **Gender Parity Index – GPI:** Ratio of the female-to-male values of a given indicator. For gender parity to GPI should be in the range of 0.97 and 1.03.

$$\frac{\text{Value of Indicator for Girls (Female)}}{\text{Value of Indicator for Boys (Male)}}$$

## Definition of Education Indicators

**Gender parity index (GPI):** The ratio of female-to-male values of a given indicator. A GPI of 1 indicates parity between sexes.

**Gross admission rate (GAR) / Gross intake rate (GIR):** The total number of new entrants in the first grade of primary education, regardless of age, expressed as a percentage of the population at the official primary school-entrance age.

**Gross enrollment rate (GER):** The number of pupils or students enrolled in a given level of education, regardless of age, expressed as a percentage of the population in the theoretical age group for the same level of education.

**Net enrollment rate (NER):** The number of pupils or students in the theoretical age group for a given level of education enrolled in that level, expressed as a percentage of the total population in that age group.

**Net admission rate (NAR) / Net intake rate (NIR):** The number of new entrants in the first grade of primary education who are of the theoretical primary school entrance age, expressed as a percentage of the population of the same age.

**Pupil/teacher ratio:** The average number of pupils per teacher at the level of education specified in a given school year, based on headcounts for both pupils and teachers.

**Transition rate from primary to secondary general education:** The number of new entrants to the first grade of secondary education (general programs only) in a given year, expressed as a percentage of the number of pupils enrolled in the final grade of primary education in the previous year.

**Student Flow rates (Promotion, Repetition and Dropout) for grade 1 to grade 12:** Student flow rate comprises of three different rates: promotion rate, repetition rate and dropout rate. For the students enrolled at a grade in a year, one can expect them only in three different locations in the following year:

- (i) Promoted to the higher grade and studying in that higher grade or completed a particular education level and stop studying.
- (ii) Repeated in the same grade and still studying (enrolled in the following year) and
- (iii) Dropped out from school (including mortality and dropouts during and end of school-year)

*The proportions of students in those three locations out of total enrollment represents three students flow rates, promotion, repetition and dropout rates.* Therefore, *promotion rate* is the proportion of students from a cohort (who enrolled in a given grade at a given school-year) who study in the following grade at the following school-year, while *repetition rate* is the proportion of students from a cohort enrolled in a given grade at a given school-year who study in the same grade in the following school-year. *The dropout rate* is the residue of promotion and repetition rates from 100%.
