Glossary

C/S Fund: The Commune/Sangkat Fund is established and managed by the Government of Cambodia to provide financial support for development projects and administrative costs of Commune/Sangkat Councils. The amount is determined as a percentage of the National Budget (for 2009: 2.8% over the 2008 budget) and is expected to increase gradually over the years. The total 2009 budget under this fund is \$ 27,643,902 (of which \$ 19,272,170 is for Development Projects and \$ 8,371,731 for Administration). Under the Rural Investment and Local Governance Project the World Bank currently reimburses the costs of development projects if these meet the Bank's criteria.

CDB: the Commune Data Base is a national database, compiled by the Ministry of Planning, on the basis of detailed questionnaires, completed at village and commune level, which are then sent to the Departments of Planning for data entry. The most recent round of data collection took place at the end of 2008 (and is reflected in the District Data Books). Commune, District and Provincial Profiles can be generated from this database and should be available from provincial Departments of Planning.

CDPD: the Commune Development and Planning Database is a database maintained by Departments of Planning and Ministry of Planning, recording proposed activities as determined and prioritized by Commune and Sangkat Councils; the Temporary Agreements between these councils and supporting agencies, as decided at District Integration Workshops and details on projects that actually take place at commune, district and provincial levels.

CIP: The Commune Investment Plan is a rolling three-year plan, developed and decided by the Commune or Sangkat Council. It sets priorities and identifies the projects proposed for the years to come.

Commune and Sangkat: the Communes (in rural areas) and Sangkats (in urban areas) are the lowest and smallest units of local government. Councils are elected directly, once in five years, for the 1417 Communes and 204 Sangkats. Within these Communes and Sangkat areas there are 14,119 villages, which have Village Chiefs, but do not constitute a formal level of local government.

DIA/P: the District Investment Initiative/ Project is jointly supported by the MDLF (Multi-Donor Livelihood Facility (supporting the NRM&L Program) and PSDD. In 2009 it covers 106 districts, 60% of the total in the country, with a budget of \$ 3.2 million. It is focused on capacity development in planning, democratic development, public competitive procurement, financial management and service delivery.

DIS: The District Information System is a national database maintained by NCDD, recording resources, staff, revenue, infrastructure and equipment available in the 193 Districts and Khans throughout the country. The last update took place in July 2009.

District, Municipality and Khan constitutes the third level of Government in Cambodia. There are 159 rural Districts, 26 Municipalities and 8 Khans of Phnom Penh Capital. They all have Councils which were, for the first time, elected in May 2009, by the Commune/Sangkat Councilors. These councils have a mandate for 5 years.

DIW: District Integration Workshops are held between July and October, to bring Commune/Sangkat Councils, looking for support for their projects, together with the governmental and non-governmental agencies that may provide support.

ICC: Inter Communes Council projects are executed in 10 provinces under the Democratic and Decentralized Local Governance Project (DDLG). This five year project (2006-2010) is executed by Ministry of Interior and funded by the European Commission and UNDP. The project focuses on improving dialogue partnership and accountability; create a network of Commune Councils at the provincial and national level and support and contribute to local area development for poverty reduction. The work under the ICC component supports investments and services formulated through inter-commune dialogue and planning.

MEDiCAM: A non-profit and non-partisan membership organization for NGOs active in Cambodia's health sector. It is the primary networking agency for the country's health-related NGOs.

NCD: The National Contracts Database is used for the design of investment projects at provincial and district levels and, once a project is approved, for monitoring the progress of investment projects. The NCD has been continuously adapted for use by different donor projects and currently is used for PSDD, DANIDA NRMLP, UNICEF, IFAD, Canadian CIDA projects. The database was first designed in 2005 and is maintained by the NCDD with quarterly updates.

NCDD: the National Committee for sub-National Democratic Development is the inter-ministerial body charged with the implementation of the Organic Law (a key legislative document, adopted in 2008, outlining the envisaged decentralization). NCDD also channels substantial financial assistance by a number of Development Partners, to projects and programs at various levels. This amounted to over \$ 91 million in 2008. More information at: www.ncdd.gov.kh, this website also provides access to reports, manuals, legal documents, details on projects and more.

OD: the Operational Districts are the districts as defined and used by the Ministry of Health. These do not coincide with the 193 (Administrative) Districts and Khans, as used by all other RGC agencies. The Operational Districts are usually larger, and so there are 77 Operational Districts against 193 administrative Districts and Khans. However they do fit within the boundaries of administrative provinces.

PID: The Project Information Database is the database maintained by NCDD at national and sub national level, to follow all aspects of projects by Commune and Sangkat Councils, including the C/S Fund projects.

PIF: The Provincial Investment Fund is allocated to all Provinces and Municipalities according to a population based formula. Part of the fund is earmarked for support to planning activities of the Provincial / Municipal Department of Planning; and to gender mainstreaming activities of the Provincial Department of Women's Affairs. The remaining "un-earmarked PIF" is allocated by PRDC to sectoral technical departments against established criteria and in response to proposals with prioritisation taking into account: priorities formulated by the CS Councils and aggregated by District into District Priority Activities Matrices (DPAM); alignment with national planning and poverty alleviation criteria, complementarity with other planned activities; and performance of the Department concerned in implementation of activities in previous years. With this provisional allocation, the Department then programs activities through the District Integration Process. Finally, the agreed activities, plus support costs amounting to no more than 25% of the total, are included in a sub-contract signed between PRDC and the Department, pursuant to the overall PSDD contract signed between NCDD and PRDC. Total budget has been around \$ 2 million per year.

Province: the 23 Provinces and Phnom Penh Capital City represent the 2nd layer of government. They vary in size, from very small, like Kep (approx. 36,000 people) and Pailin (approx. 70,000 people), or large but with small populations, like Mondul Kiri (over 60,000 people), and Ratanak Kiri (over 153,000) to densely populated and large, like Kampong Cham (over 1.7 million people) and Kandal (approx. 1.4 Million people).

PSDD: the Project to Support Democratic Development through Decentralization and Deconcentration is funded by DFID (UK), SIDA (Sweden) and UNDP and runs from 2006 till the end of 2010 (including a one year extension). Annual budgets range from \$ 11 million to over \$ 18 million. The project provides core technical support to NCDD and to the provinces, financial support to the C/S Fund, District Initiative, Provincial Investment Fund and capacity building support through training, studies and advisory services.

RILGP: The Rural Investment and Local Governance Project is the World Bank funded project that provides substantial support to C/S Fund projects and to developing the required infrastructure, policies, systems and skills needed. It started in 2003 with a Loan for \$ 22 million for 2003-2007 and was then extended with a Grant of \$ 36 million for the period of 2007-2010. Discussions about a possible RILGP 2 are taking place between RGC and the World Bank.

RPRP: the Rural Poverty Reduction Project is a seven years project from 2004 till 2010, funded by IFAD and UNDP and implemented through the Ministry of Agriculture, Forestry and Fishery, supported by the Ministry of Interior and facilitated by NCDD. The project is active the provinces Prey Veng and Svay Rieng and focuses on 120,600 households below poverty line. The objective is poverty reduction with the active participation of the poor through improved livelihoods, Strengthened capacity, Sustainable farming systems and natural resource management, new and/or rehabilitated infrastructure development, increase accessibility to technology, services and markets for their economic and social development.

RULIP: the Rural Livelihoods Improvement Project is implemented by the Ministry of Agriculture Forestry and Fisheries (MAFF)' Project Support Unit- PSU, with the NCDD playing the role of cooperating agency. Funded by IFAD and UNDP, the project will run till 2014. The target group consists of poor households who have little or even no land, few livestock or other assets and often many dependents. The main goal of the project is to directly or indirectly improve the livelihood systems, food security and incomes of a total of 33,900 rural poor, ethnic minority and female headed households in targeted village of Kratie, Preah Vihear and Ratanak Kiri provinces in a sustainable manner.

Seth Koma: The UNICEF funded Seth Koma program focuses on measurable action for children and women. During 2006 -2010 it is implemented in six provinces. Government and UNICEF pursue a set of inter-related goals, addressing critical stages of the life cycle of the child: a) Mothers have safe pregnancies and deliveries and healthy newborns; b) best possible start in life of infant; c) Children enter schools at the right age of six years; d) Children are protected from exploitation, abuse, violence, discrimination and other risks; and e) Youth and adolescents acquire life skills, express their views, participate in the decisions.

Preface

The Government of Cambodia attaches great importance to optimal use of scarce resources and to participatory planning and management at all levels. The Organic Law which was adopted in 2008 provides the legal context for further steps towards improving and decentralizing planning, management and monitoring, and towards greater accountability and transparency of institutions at sub-national levels.

The Government has established elected Councils at the sub-national levels, and we will progressively give them the responsibilities, together with the human and financial resources, to deliver a wide range of public services. They will be more democratic, more efficient, more transparent and accountable, better at addressing gender and other inequalities, and at fighting corruption. We recognize that development does not come from government alone; it needs the involvement of citizens, civil society and the private sector, and the new system will facilitate this.

A central element in this process is the availability of information on any aspect of development to all concerned parties. The newly elected Councillors at Provincial level, Provincial line departments operating, but also NGOs, Development Partners and citizens throughout Cambodia need information on problems and requirements, resources and opportunities, services and agencies, plans and projects. They will need such information to better understand the present situation, set targets for the future, monitor progress, know what others are doing and to apply resources wisely and this is the reason the Provincial Data books will be so valuable.

The Provincial Data Books are a major step towards full transparency and towards informed planning and decision-making. They provide all available data at Provincial and District level in easily accessible formats, in Khmer and English. This is in addition to the more detailed District Data Books which have been produced for all Districts, which show Commune level information as well.

This is the first time in Cambodia (and possibly in South East Asia) that such detailed information is made so widely available and NCDD should be commended for the hard work that has gone into this. We also thank the Ministry of Planning, which provided the detailed data of the Commune Data Base, the sectoral ministries and provincial authorities who contributed data and the Development Partners who provided financial support.

It is our sincere hope that the publication of the Data Books will strengthen capacities, especially at provincial and district levels, for evidence-based development planning. We also hope that this information will deepen the understanding among Ministries, Provincial Authorities, Development Partners, NGOs and research agencies of the realities at commune and district levels.

We call upon all to use and distribute this information, complement or correct where appropriate and to contribute new data in the years to come.

28th March 2010

Sar Kheng

Deputy Prime Minister, Minister of Interior
and Chairman of NCDD

Introduction

Purpose

The purpose of the Provincial Data Books is to bring together information on any aspect of life and development of Provinces and Districts, and make this widely available. The primary targets are the newly elected Provincial Councilors, provincial level line departments, other provincial agencies, Development Partners and NGOs operating at this level. They need detailed knowledge on current living conditions, natural resources, infrastructure, agriculture and other economic activities, current service levels, past and planned projects and available resources.

While much information exists on many of the above aspects, it is often hard to access that information and much is lost to reports, databases and statistics that are not widely shared. Data are often only available in one language and often out-of-date, and many reports cover only one sector or region.

We found that these problems are especially acute at the district level and much effort has been put into producing **District Data Books for all Districts, Municipalities and Khans**, which show data at District/Municipality/Khan level and at Commune/Sangkat level. These can be obtained from NCDD or accessed through the NCDD website. However, in the context of decentralization the Provinces may also become a more significant level of local government and development planning, and a source of technical support to district level planning. This creates an urgent need for wide-ranging data to be used for setting base-lines, planning and prioritizing, monitoring and learning.

Approach

We have attempted to identify and compile all available statistics, reports, maps and other data at province and/or district level. From this we have selected information that is available for all or most provinces, reasonably reliable and up-to-date, sufficiently detailed and of possible interest to development planners, decision makers, agencies and citizens.

The major sources of the information in these Provincial Data Books are:

- a) The Commune Data Base information over the years 2006 to 2009 (the most recent data were collected late last 2008)
- b) Detailed information directly collected from the Ministry of Health, the Ministry of Information, the Ministry of Education, Youth and Sports and (for maps) the Ministry of Land Management, Urban Planning and Construction
- c) The Project Information Database (PID) at NCDD (up-to-date)
- d) The Commune Development and Planning Database (CDPD) (up to date)
- e) The National Contracts Database (NCD) (up to date)
- f) Direct data collection at provincial and district level on private sector, irrigation, roads, and electricity, through provincial agencies
- g) Medical data collected from MediCam
- h) The ID Poor Project – for poverty data on a number of provinces and districts
- i) NCDD's work on predictive poverty rates
- j) Specific projects for project outputs, expenses and budgets (Seth Koma, RILGP, RPRP and ICC)

Limitations of the data

We are fully aware that the data we collected are not always complete, consistent or correct. While we have rejected information that was wrong or very incomplete, we decided not to aim for statistical and scientific perfection, but to include information that is useful, relevant and comprehensive. We also accepted different sources for the same data as this may encourage discussion on the quality of the respective data.

We strongly encourage anyone who notes errors or incompleteness in these data to contact us and to share their data. We hope that the next round of producing such Provincial Data Books can draw on wider sources and more complete data.

We encourage the Provincial Agencies, who can receive these data also in digital format, not only to use these for their planning and monitoring, but also to start correcting and updating these data and to share new data with NCDD for future use.

Contents

The information in the following pages is organized in five sections:

a) Geographical data: this section provides maps on infrastructure and administration and on land use and natural resources management. These maps are also provided in large format to all Provinces.

b) Provincial Profile: this presents wide ranging data, covering 2006 – 2009, at provincial and district level, extracted from the Commune Data Base, but edited for better understanding.

c) Plans and Projects: this section presents development priorities determined by Commune and Sangkat Councils, outputs and expenditure of major projects at Province and District level over 2006 – 2008, and plans and budgets for 2009.

d) Services and Organizations: this section provides details on key infrastructure (roads and related infrastructure, electricity, irrigation systems) and services in health and education at Province and District level. It also provides information on private sector agencies active in the Province.

e) Poverty Data: this section provides predicted poverty rates for 2009 for all districts and communes and detailed poverty data compiled and processed by the ID Poor project for those that have been covered by the project.

The future

It is our sincere hope that this is the start of a longer-term process. We hope that a next edition of these Provincial Data Books will offer more comprehensive, and up-to-date information. We hope that the Provincial Administrations will not only start using this information, but also improve and update it. For this they are all provided with the full data set in digital format.

We invite agencies, projects and experts to send reports, statistics and maps that could be used for a next version to us and we invite all users of the Provincial Data Books to inform us about errors, updates and inconsistencies. Please contact us through info@ncdd.gov.kh

We now invite you to browse through this data book. You may open this randomly or use the table of contents and go to the aspects that have your special interest.

We hope that you will be informed, surprised and assisted. We hope, above all, that this information will lead to a deeper understanding of causes and effects of poverty, to purposeful decisions on how to tackle those causes and to greater transparency in using scarce resources for the benefit of all.

¹ All data in this section come from the Commune Database (CDB) unless otherwise specified. These include primarily new CDB data, collected late 2008, and some data from earlier years.

5. General Information

5.1. Population of the Province

5.1.1 Total Population

Number of families	2005	2006	2007	2008
Total number of families	22,665 families	22,359 families	22,944 families	23,183 families
Increase (+)/Decrease (-) in nr of families		-1%	3%	1%
Total population	114,799 pers	116,955 pers	118,855 pers	116,506 pers
Increase (+)/Decrease (-) in nr of people		2%	2%	-2%
Number of female Headed Households (HH)	3,919 families	4,664 families	4,701 families	4,373 families

Note: Percentages of population and increase/decrease are calculated on basis of the previous year. A negative sign in front of the percentage indicates a decrease in population.

5.1.2 Population, by District, in 2008

5.1.3 Population, by Age Group, 2006-2008

Population by age group	2006	2007	2008	
	%	%	%	Number
Age 0-5 years (as percentage of the population)	13%	13%	13%	15,243 persons
Male 0-5 yrs	52%	52%	51%	7,760 persons
Female 0-5 yrs	48%	48%	49%	7,483 persons
Age 6-17 (as percentage of the population)	33%	32%	32%	37,110 persons
Male 6-17 yrs	52%	50%	50%	18,471 persons
Female 6-17 yrs	48%	50%	50%	18,639 persons
Age 18-60 (as percentage of the population)	51%	51%	51%	59,445 persons
Male 18-60 yrs	51%	51%	50%	30,005 persons
Female 18-60 yrs	49%	49%	50%	29,440 persons
Age 61 above (as percentage of the population)	4%	5%	4%	4,708 persons
Male 61	50%	45%	49%	2,311 persons
Female 61	50%	55%	51%	2,397 persons

Note: The overall percentage for each age group is calculated on the basis of the total population. The gender distribution of each group is calculated on the basis of the population within that particular age group.

5.2 Occupations

5.2.1 Percentage of families with a particular Occupation, 2006-2008

This table shows the percentage of the population who have a particular occupation (job), for example the percentage of the population in the district who are rice farmers, furniture crafter, trader, etc.

Description	2006	2007	2008	
	%	%	%	Number
Families whose main occupation is agriculture	67%	66%	64%	14,784 Families
Families whose primary occupation is rice farming	30%	29%	31%	7,213 Families
Families whose primary occupation is cultivating long-term crops	5%	7%	4%	875 Families
Families whose primary occupation is cultivating short-term crops	3%	3%	3%	683 Families
Families whose primary occupation is cultivating vegetable	2%	3%	2%	547 Families
Families whose primary occupation is fisherman	21%	20%	21%	4,826 Families
Families whose primary occupation is livestock farmer	3%	4%	2%	429 Families
Families whose primary occupation is NTFP collection	2%	1%	1%	211 Families
Families whose main occupation is craft work	0%	0%	0%	52 Families
Families, whose main occupation is in furniture craft, wooden, rattan, vine, bamboo	0%	0%	0%	7 Families
Families whose main occupation is in metal, aluminum, glass goods production	0%	0%	0%	10 Families
Families whose main occupation is food production	0%	0%	0%	23 Families
Families whose main occupation is tire, plastics and rubber goods production	0%	0%	0%	6 Families
Families whose main occupation is textile, clothing goods production	0%	0%	0%	0 Families
Families whose main occupation is in other production, not listed above	0%	0%	0%	6 Families
Families whose main occupation is services	17%	17%	20%	4,596 Families
Families whose main occupation is trade	4%	5%	6%	1,355 Families
Families whose main occupation is repair	1%	1%	1%	283 Families
Families whose main occupation is providing transport services	2%	3%	4%	859 Families
Families whose main occupation is providing other services	10%	8%	9%	2,099 Families
Families whose main occupation is not clear (or multi)	16%	16%	16%	3,751 Families

Note: The occupation percentages are calculated on the basis of the total number of families.

5.2.2 Percentage Families that work in one of four occupational sectors, by District in 2008

This table indicates the percentage of families involved in one of four occupation types: agriculture, craft, services or non-specific (other). Please note agriculture includes forestry activities such as cutting down trees and gathering gum from the trees.

Note: Calculated on the basis of the total number of families within a province.

5.2.3 Percentage of Families with public Sector, private Sector or uncertain Jobs, 2006-2008

Description	2006	2007	2008	
	%	%	%	Number
Families that have a family member who is a government official, staff or worker	7%	9%	9%	2,116 families
Families that have a family member who is a private sector staff or worker	3%	5%	4%	948 families
Number of people aged 18-60 with uncertain/irregular jobs	10%	9%	8%	4,916 persons

Note: In the first two rows percentages are calculated on the basis of the total number of families. In the third row the percentage is calculated on the basis of the total number of people aged 18-60 years.

5.2.4 Percentage of Families with public or private Sector Jobs, by District in 2008

Note: Calculated on the basis of the total number of families in the district

5.2.5 Percentage of People aged 18-60 years with uncertain/irregular Jobs, by District, in 2008.

5.3 Property

5.3.1 Housing types and facilities, 2006-2008

This table shows the percentage of people living in a certain type of house. It also indicates how many houses have electricity or battery powered lights and how many have TV.

House Type	2006 %	2007 %	2008	
			%	Number
House with thatched roof	25 %	24 %	19 %	4,185 houses
House with zinc/fibro roof	70 %	72 %	77 %	17,244 houses
House with tiled roof	1 %	1 %	1 %	277 houses
Flats/apartments (with many families living)	0 %	0 %	0 %	53 houses
Concrete house or flat (with one family living)	1 %	3 %	2 %	470 houses
Villa house	1 %	0 %	0 %	43 houses
Houses with electricity	44 %	44 %	46 %	10,238 houses
Houses with battery light	19 %	25 %	30 %	6,589 houses
Houses with TV	41 %	49 %	53 %	11,768 houses

Note: Calculated against the total number of houses

5.3.2 Families living on public Land or without a permanent House

Living situation	2006	2007	2008
Families living in a house on public land	511 families	439 families	402 families
People, without permanent housing	282 person(s)	227 person(s)	94 person(s)

5.3.3 Percentage of Population living in a particular type of House, by District, in 2008

Note: Calculated against the total number of houses in each district

5.3.4 Percentage of Houses with Electricity, Battery Lights and/or TVs, by District, in 2008

Note: Calculated against the total number of houses in each district

5.3.5 Types of Vehicles and their ratio to Families, 2006-2008

This table shows the number of families per vehicle in the province. The last column shows the total number of each type of vehicle in the province for 2008.

Description	2006 ratio	2007 ratio	2008	
			Ratio	Number
Bicycle and bicycle with trailer	4	4	3	7,564
Ox-carts and horse-carts	20	22	21	1,120
Motorbike/with trailer	5	4	3	7,341

	Area irrigated from dug pond	0 %	- %	- %	0 ha

6.5.7 Water sources for wet Season Rice Cultivation, by District, in 2008

This chart shows the percentage of wet season rice cultivation receiving water from rain (natural) and from irrigation.

6.5.8 Access to Irrigation

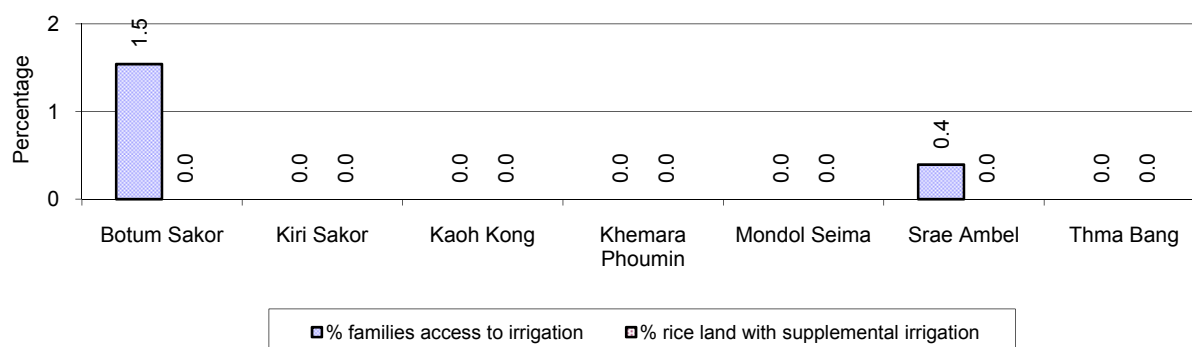

Description	2006 %	2007 %	2008	
			%	Number
Families who have access to irrigation water	1%	0%	1%	40 families
Families who have irrigation wells	2%	1%	1%	70 families

Note: Calculated against the total number of families are rice farmers

6.5.9 Number of Irrigation Wells, 2006-2008

Description	2006	2007	2008
Number of irrigation wells	54 wells	72 wells	77 wells

6.5.10 Percentage of Families with access to (supplemental) Irrigation for wet Season Rice cultivation, by District, in 2008

Note: % of families, with access to irrigation is calculated against the total number of families, whose main occupation is rice farming. Irrigated wet rice land area is calculated against the total actual wet rice land cultivated areas

6.5.11 Irrigation Wells, by District, in 2008

6.5.12 Farmers owning less than one hectare of Rice Land

Description	2006 %	2007 %	2008	
			%	Number
Families who have less than one hectare of rice land	22%	32%	38%	2,734 families
Families who do not own any rice land	12%	14%	11%	827 families

Note: Calculated on basis of total number of families who are rice farming

6.5.13 Percentage of Farmers with less than one Hectare or no Rice Land, by District, in 2008

Note: Calculated on basis of total number of families who are rice farming

6.5.14 Average farm-gate Prices of Rice, 2006-2008

Description	2006	2007	2008
Maximum average farm gate price	620 Riels/Kg	904 Riels/Kg	1,087 Riels/Kg
Minimum average farm gate price	498 Riels/Kg	716 Riels/Kg	874 Riels/Kg
Average farm gate price	559 Riels/Kg	810 Riels/Kg	981 Riels/Kg
Average rice production per person	111 Kg/person	158 Kg/person	141 Kg/person

6.5.15 Minimum and maximum farm-gate Prices of Rice in Riel/kg, by District, in 2008

6.5.16 Production of Paddy in Kg/Person, by District, in 2008

This table shows how much paddy (harvested rice) is produced in a year in a district, in kg per person.

6.5.17 Production of other Crops, 2006-2008

Crops	2006	2007	2008
Corn cultivation area	36 ha	33 ha	88 ha
Estimated corn yield	2.5 tonne(s)/ha	0.8 tonne(s)/ha	1.4 tonne(s)/ha
Estimated corn production	91 tonne(s)	27 tonne(s)	120 tonne(s)
Soya bean cultivation area	0 ha	0 ha	0 ha
Estimated Soya bean yield	- tonne(s)/ha	- tonne(s)/ha	- tonne(s)/ha
Estimated Soya bean production	- tonne(s)	- tonne(s)	- tonne(s)
Mungbean cultivation area	3 ha	0 ha	5 ha
Estimated Mungbean yield	1.5 tonne(s)/ha	- tonne(s)/ha	1.0 tonne(s)/ha
Estimated Mungbean production	5 tonne(s)	- tonne(s)	5 tonne(s)
Peanut cultivation area	2 ha	74 ha	122 ha
Estimated Peanut yield	0.3 tonne(s)/ha	0.8 tonne(s)/ha	1.1 tonne(s)/ha
Estimated Peanut production	1 tonne(s)	61 tonne(s)	137 tonne(s)
Cassava cultivation area	26 ha	38 ha	58 ha
Estimated Cassava yield	3.5 tonne(s)/ha	3.2 tonne(s)/ha	5.1 tonne(s)/ha
Estimated Cassava production	89 tonne(s)	123 tonne(s)	296 tonne(s)
Sweet potatoes cultivation area	24 ha	8 ha	9 ha
Estimated Sweet potatoes yield	2.6 tonne(s)/ha	0.7 tonne(s)/ha	1.2 tonne(s)/ha
Estimated Sweet potatoes production	60 tonne(s)	6 tonne(s)	11 tonne(s)

Estimated Sesame yield	- tonne(s)/ha	- tonne(s)/ha	- tonne(s)/ha
Estimated Sesame production	- tonne(s)	- tonne(s)	- tonne(s)

6.5.18 Yields of Corn, Soya beans and Mungbeans in tonne(s)/ha, by District, in 2008

6.5.19 Yields of Peanuts and Cassava in tonne(s)/ha by District, in 2008

6.5.20 Yields of Sweet Potatoes and Sesame in tonne(s)/ha, by District, in 2008

6.5.21 Percentage Farmers who own less than 1 Ha or no Chamkar land

Description	2006	2007	2008	
	%	%	%	Number
Families, who own less than 1ha of Chamkar land	10%	27%	24%	499 families
Families, with no Chamkar land	7%	20%	10%	205 families

Note 1: Calculated as a percentage of the total number of families whose main occupation is Chamkar (not rice) farming

Note 2: Chamkar land is no-rice land, i.e. other crops

6.5.22 Percentage Farmers owning less than 1 ha or no Chamkar land, by District, in 2008

Note: Percentage is calculated among families, who Chamkar farm as a main occupation, not the total population of the district.

6.5.23 Percentage of Families raising Cattle/Buffalo, 2006-2008

Description	2006	2007	2008	
	%	%	%	Number
Families raising cattle/buffalo	22%	22%	24%	5,456 families
Families raising cattle/buffalo as labor forces	16%	18%	19%	4,327 families

Note: Calculated against the total number of families.

6.5.24 Number of Cattle/buffalo being raised, 2006-2008

Description	2006	2007	2008
Total number of cattle/buffalo	13,836 head(s)	14,705 head(s)	14,836 head(s)
Average cattle/buffalo per families	2.9 head(s)/families	2.9 head(s)/families	3 head(s)/families

Note: Calculated by dividing total number of cattle/buffalo by total number of cattle/buffalo raising families

6.5.25 Average number of Cattle/Buffalo per Family, by District, in 2008

Note: Calculated by dividing total number of cattle/buffalo by total number of cattle/buffalo raising families

6.5.26 Percentage Families raising Cattle/Buffalo, for general and labor purposes in 2008, by Commune

Note: Calculated using the total number of families raising cattle/buffalo against the total number of families.

6.5.27 Type and number of agricultural Machines, by District, in 2008

6.5.28 Livestock-producing Households, 2006-2008

Description	2006 %	2007 %	2008	
			%	Number
Total number of families raising pigs	30%	27%	25%	5,800 families
number of families raising more than 3 pigs	8%	7%	6%	1,498 families
Total number of families raising chickens	56%	50%	52%	11,958 families
number of families raising more than 3 chickens	45%	39%	40%	9,292 families
Total number of families raising ducks	5%	4%	4%	942 families
number of families raising more than 5 ducks	3%	3%	3%	697 families
Total number of families raising goats or sheep	0%	0%	0%	23 families
Total number of families raising horses	0%	0%	0%	0 families

Note: Calculated against the total number of families

6.5.29 Percentage Families raising Pigs, by District, in 2008

Note: Calculated against the total number of families in the district

6.5.30 Percentage Families raising Chickens, by District, in 2008

Note: Calculated against the total number of families in the district

6.5.31 Percentage Families raising Ducks, by District, in 2008

Note: Calculated against the total number of families in the district

6.5.32 Percentage Families raising Horses, Goats or Sheep, by District, in 2008

Note: Calculated against the total number of families in the district

6.5.33 Livestock Farms, 2006-2008

Description	2006	2007	2008
Number of cattle/buffalo farms	42 farm(s)	34 farm(s)	30 farm(s)
Number of pig farms	25 farm(s)	37 farm(s)	42 farm(s)
Number of goat/sheep farms	4 farm(s)	4 farm(s)	0 farm(s)
Number of chicken farms	8 farm(s)	15 farm(s)	1 farm(s)
Number of duck farms	3 farm(s)	7 farm(s)	10 farm(s)

6.5.34 Number Livestock Farms, by District in 2008

Note: Number of farms are recorded by the village chief, not by counting number of livestock in each farm

6.5.35 Number Chicken and Duck Farms, by District, for 2008

Note: Number of farm places recorded by village chief, not by counting number of livestock in each farm

6.5.36 Families raising Fish, 2006-2008

Description	2006	2007	2008
Total number of families raising fish	132 families	137 families	118 families
% families raising fish	1%	1%	1%
Number families raising fish in pond	83 families	98 families	86 families

SECTION C: PLANS AND PROJECTS

12 Priorities and Plans

12.1 Priorities of the Districts in the Province for 2009 by Sector

Below data summarized by sub-sector from the District Priority Activity Matrix (DPAM) taken from the CDPD. The DPAM is used for the District Integration Workshop (DIW), to show what kind of projects the Communes have proposed in their Commune Investment Plan (CIP) for 2009. Donors, departments and other agencies then considers which projects they want to support and which projects they are not interested in. This results in Temporary Agreements between the Commune Council and the Supporter (NGO, Department, private donor, etc).

13 District level Projects from 2006 to 2009

District Initiative Projects are funded by Danida and DFID through the PSDD (UNDP, DFID and SIDA).

Funding for 2006-2008

Between 2006 and 2008 there were 14 provinces funded by PSDD and 10 by Danida and DFID. The list of provinces and who funded them is below

Danida and DFID funded DIPs:

Kampong Cham	Kampong Speu	Koh Kong	Kratie	Monduliri
Pursat	Ratanakiri	Siem Reap	Sihanoukville	Kep

PSDD funded DIPs:

Banteay Meanchey	Battambang	Kampong Chhnang	Kandal	Phnom Penh
Prey Veng	Svay Rieng	Takeo	Kampong Thom	Preah Vihear
Stung Treng	Kampot	Oddar Meanchey	Pailin	

Funding for 2009

In 2009 there was a change to the number of provinces funded by the two streams. Danida and DFID were still funding the same 10 provinces they had been funding the three years previous, but two more provinces were added *Kampong Thom and Kampot*. Now PSDD funded 12 provinces and Danida and DFID funded 12.

Amount spent on repair and rehabilitation of roads in 2008 (\$)	12,857						12,857	

Note 1: Please note that these data are not necessarily complete or correct. The data are derived from government agencies at provincial and district level which used different recording systems, did not always have complete data or were, sometimes, less than willing to share their data.

Note 2: Please be aware that these data are incomplete due to the fact that the amounts for the construction, repair and rehabilitation recorded reflect only funds provided by the government, not the contributions by any other parties.

14.2 Scale of and Expenditure on Irrigation in 2008 by District

Irrigation	KKG	Bothumsakor	kirisakor	Koh Kong	Khemarak phumen	Mondul sema	Sre Ambel	Thmabang

Total funds spent in 2008 on operation and maintenance (\$)	3,221	3,221	0	0	0	0	0	0

Note 1: Please note that these data are not necessarily complete or correct. The data are derived from government agencies at provincial and district level which used different recording systems, did not always have complete data or were, sometimes, less than willing to share their data.

Note 2: Please be aware that the data above are incomplete as these only reflect funds provided by the government, not the contributions by farmers or other parties.

14.3 Power Supply in 2008 by District

Electricity	KKG	Bothumsakor	kirisakor	Koh Kong	Khemarak phumen	Mondul sema	Sre Ambel	Thmabang

Total amount collected from users for consumed electricity (\$)	68,202	24,375	7,593	2,109	n/a	n/a	34,125	n/a
Per capita electricity consumption in 2008 in Kwh	4	2	3	0	n/a	n/a	10	n/a

Note 1: Please note that these data are not necessarily complete or correct. The data are derived from government agencies at provincial and district level which used different recording systems, did not always have complete data or were, sometimes, less than willing to share their data.

Note 2: These data only record electricity provided by electricity companies and does not include homes powered by generators or batteries (for this information see Section B: General Profile, Part 1: General Information; table 1.3.1 and chart 1.3.4).

Note 3: In most provinces electricity is only provided through town-based networks

Note 4: Per capita consumption is calculated by dividing the total volume of electricity produced in 2008 by the number of people living in each district as per the 2008 census (for the provincial data it is calculated against the number of people living in the province)

15 Health Facilities

Please note that the Operational District (health) boundaries are different from the administrative district boundaries. Therefore the data provided here show the facilities, staff, NGOs etc in each Operational District within the province NOT the usual administrative district.

18 Data on Poverty

18.1 Predicted Poverty Rates for 2009, by commune

The **Predicted Family Poverty Rate** is based on a statistical model (robust multilevel mixed effect regression) at village level developed by the NCDD M&E Unit and uses CDB data for making an estimate of the predicted poverty rate (this is: the portion of total families in the district or commune who are deemed poor) for the following year using current year data.

The basis for this predicted poverty rate also uses IDPoor (a project of the Ministry of Planning with technical assistance provided by GTZ) data.

18.2 Poverty data from Survey

The Ministry of Planning IDPoor Program has developed standardized Procedures for Identification of Poor Households in rural areas. These Procedures are implemented using a participatory and consultative process by sub-national government structures and community representatives.

The IDPoor Program is managed by the Ministry of Planning (MOP), in cooperation with the Ministry of Interior's Department of Local Administration (DOLA). The program is supported by the Federal Republic of Germany, with technical assistance provided by German Technical Cooperation (GTZ). In 2009, AusAID also provided funding support to the Program.

Objective

The IDPoor Program aims to implement the Procedures for Identification of Poor Households in rural areas as widely as possible, in order to provide data on the level of poverty of areas and households that can be used by a large range of institutions and organizations for targeting services and development assistance to poor areas and poor households.

Coverage: During 2007, 2008 and 2009 the IDPoor Procedures have been implemented in 18 provinces (with partial or complete coverage), covering a total of around 7000 rural villages. The MOP and a number of NGO partners who are Health Equity Fund Operators have collaborated in collecting this data from different areas.

Categorization: Identified poor households are classified under two poverty categories: Poor Level 1 (very poor), and Poor Level 2 (poor). Households are classified based on data collected using a standard questionnaire, together with consideration by villagers of these households' special circumstances.
